UTT is presently developing a Masters in Health Administration which is intended to improve the competencies of health sector managers and leaders in Trinidad and Tobago. The core areas to be addressed are Leadership, Management and Health Systems, with the programme initially being delivered on a part-time basis commencing September 2007.

To facilitate this, the University is developing a database of nationals and other professionals with appropriate and relevant qualification and experience to facilitate the delivery of the programme. Accordingly, expressions of interest are being invited from persons with significant relevant work and teaching experience. Your correspondence should clearly indicate area/s of interest along with a Curriculum Vita, and be addressed as follows:

Expression of Interest - MHA Programme
Health Sciences Secretariat
University of Trinidad and Tobago
Orange Grove Road
Tacarigua

The deadline for submission is February 16th 2007.
